ELECTRONIC SHELF LABELS

Can you really afford NOT to use Electronic Price Labels!

Improve Service - Reduce Costs - Grow Margins

- **Ease of implementation into company's POS system.** Open platform software allows ease of integration with all data formats
- Partnering with Cisco & Miraki to reduce the infrastructure cost
- **Completely wireless tags.** Battery life 5-7 years based on 3 price updates / day
- Cloud based software / does not require any additional hardware
- **Real-Time Pricing & Pre-Scheduled Promotions.** Ability to quickly and accurately change prices & product info. Staff is no longer responsible for price changes
- Custom design templates utilizing logos, images, customer reviews
- **QR Code enabled for smart shoppers**
- Substantial reduction in operational costs. Fast ROI, typically 10-18 months

Never print another price tag again
